Phone: 630-868-9099

The M2M In Motion's Single Web-Based Platform gives you the ability to be flexible while adapting to your organizations needs. This is the most affordable ELD solution. Available to both Android and iOS users, the ELD electronic logging device driver mobile app is free. Reduce administrative tasks with real-time HOS visibility and GPS fleet tracking. M2M in Motion connected Dash Cams provide powerful insights that reduce collisions, keep drivers safe, and lower accident-related costs.
