Overview Our passion for great barbecue drives every operation and preparation decision we make. We use a seventeen spiced, dry rub, combined with a vinegar-based made from scratch BBQ sauce. Temperatures are kept between 200 - 220 degrees. We only cook over the finest fruitwoods such as maple and cherry, which adds that distinctive, smoky flavored taste that our customers have come to know and love. At Busy People Chefs, we take the safety in pork extremely serious. We follow a very stringent process
