Overview I love art, it is my passion and the world has been my canvas with so many wonderful things to create from it. I work in many mediums such as oils, acrylics, sketching, watercolor, signs, windows, murals, faux, portraits, sculptures and much more. We hike through the forest to find many of the items that I work on. All of my work is done through energy that I feel as I work on my art. I have done lots of work ranging from areas such as Beverly Hills California all the way to Washington. I hope
