Overview I am a glass artist living in the middle of Missouri. I love color and unique designs. I guarantee that all of my glass work is made by me or my family in the good old U.S.A. unless otherwise noted. I am a member of the Glass Art Society and the International Society of Glass Bead Makers. I have been working in stained glass and glass artwork for about ten years. All of my pieces are OOAK (one of a kind) with variations in color, cut and sometimes even design. If you are looking for
