Overview Benton Green is well qualified to handle what you require of a tree service company. We are licesensed by the state of Louisiana, Mississippi, as well as the International Society of Arboriculture to conduct all your tree work needs. We come with state of the industry equipment, but it takes more than that to get the job done; it takes a team of skilled workers with the knowledge, experience and cooperation to do the work right in a responsible way. Tree work is dangerous work.
