OverviewBased in Denver, CO, ITS Music Group is a full-service record label that helps artists take their careers to the next level. I was inspired by God to start my company. While growing up, I enjoyed entertaining people around me, which was also motivated me. The first step I took towards starting my business was accepting a commercial space from a friend to build a studio. After completing the legal process, obtaining studio equipment, and organizing everything, my label became a legit business.
