OverviewHave you ever noticed that sometimes we do not realize of certain things until they are brought to our attention by someone else? Well, now you know it and it's going to bug you. Your vehicle's Hazy Headlights are making it look older than it is, affecting your vehicle's appeal and full value, if you are or will be considering to sale it or trade it in. In most modern vehicles, if not all, the headlights are acrylic.

Most plastics have a tendency to turn hazy, cloudy, foggy or faded over time
