OverviewHi! I have my own handyman and carpentry business. I can do a little bit of everything, just ask please. If I don't do it, I do not pretend to know, but may refer you to someone who does. I have over 20 years of experience and am looking for new customers. Almost all of my customers are by word of mouth and repeatably call me for my services so I have many references. I believe in taking care of my customers and their needs as best as I can. I've recently been busy pressure
