As a CranioSacral based Licensed Massage Therapist (NMLMT 5439), I offer physical, spiritual and emotional reintegration through intuitive touch. A session with me begins with CranioSacral addressing of your Central Nervous System, (CNS), which brings immediate relaxation to your core, then follows an intuitive session as I listen to your body and try to show up where I'm sent, which may not be the neck and shoulder areas you came in for, but by the end of the session, we get those ironed out
