Overviewwe know that hiring a contractor can be an overwhelming and even a scary process, so I am going extra mile to make sure customers are completely comfortable and trust me to work on their homes like referrals and photos of work that has bin done and helping them with any project that they need me to work on, i know it could get a bit tactic like picking a color for a room. And you might be asking how am I going the extra mile, well you deal with me directly 1 on 1 non of the office headache li
