Holistic Care means care that addresses the whole person. No one enjoys the isolation that loss of independence creates. That is why our aides provide Care to all our patients, as decided in the Care Plan. While it is not unusual for patients to become fond of their Aides, a home health Aide provides services in the most professional manner to enable the client to participate more fully in his or her life. As a companion, the home health Aide may accompany the patient to doctor appointments,
