Overview New Mexico Eco Wash, LLC will use 25 times less water and help reduce if not eliminate potentially millions of gallons of toxic water from flowing into the storm drains that may harm the water sources. Water consumption is more than 20 - 30 times greater when done manually rather than using a professional high-pressure eco wash system. With our self contained system there are no harsh chemicals entering the storm drains. We have commercial grade, self contained trash bin eco wash cleaning tru
