OverviewOur produce stand and garden center is very seasonal. We open in March to offer you the best selection of nursery plants. Trees, shrubs, roses, tropical flowers, palm trees, ferns, and annual flowers will be the main attraction March through May. The produce season normally starts with fresh strawberries around the first of April. Soon following is fresh squash, cucumbers, and green beans. We work hard to produce the earliest possible okra. We hope to start picking okra by

May 20. Tomatoes an
