Overview Silver Spoons Kitchen was founded in 2017 by Molly Schaefer. Our mission is to empower older adults to live an independent life by providing nourishing meals and a companion who prepares them. We visit homes once a week and prepare a week's worth of meals for our clients, catering to tastes and dietary needs unique to the older population. This service is hugely beneficial to caregivers in Denver who are looking for some respite and the peace of mind knowing their loved one is taken care of.
